

# MANIPULATED WARS

Information received on 5/3/1998.

As the Big War could not come through, our **manipulators** went quickly back to the "Small War System".

Unfortunately, we are stupid enough to be fighting for anything they invent, never giving ourselves the time to think of the advantage or disadvantage of our continuous fighting.

Has anyone given it a thought, that there are specific places, **all over our planet**, where killings are going on for many different "reasons", without ever reaching for the "goals" they are so happily killing each other for?

All this, already well known places, are kept in constant turmoil. Sometimes we hear about them (when needed to draw our attention to "new catastrophes"), and in such cases, the fighting is dramatically increased.

For the moment we have the Balkan starting again. Well, it has not been allowed to fully stop. As this part of the world has our attention today, we can use IT as an example of the Grey's , strategies.

Possibly, to fully understand this, you could read some of the "**Purpose**" of some of the Bases. The ones under "Political Base", or "Military Base", or "Training Base", will illustrate you about the way we are being manipulated.

Most people do not grasp what is **really** happening. Everyone is trying to find **who is behind all this craziness**. Well, our "friends", the Greys are!!!

In these areas of continuous conflicts one should look for the very clever, and well trained instigators. Once those are found and moved away, peace could be made, **but not before!**

For the moment we have millions dying and suffering for no reason whatsoever. The Greys are very satisfied with this. So, you see, they could not do the big killing, so they simply continue with the "slow" demise of unwanted population.

At the same time we are made to believe that **war is the only solution to any problem**. This is a BIG LIE, as you see, things are getting worse and worse all over the place.

**OUR MINDS ARE BEING CONTROLLED IN DIFFERENT WAYS, BY THE NEWS MEDIA AS WELL AS BY OTHER MENTAL INFLUENCES, OFTEN USED WHILE WE ARE ASLEEP!**

It does look grim, it is grim, but the solution will always be, **HAPPINESS AND ETHICS.**

Happy and ethical people can reason, handle things, and are not easily influenced by negative press and thoughts. It seems that such people are not really wanted by our governments which are manipulated from "above", most without knowing it.

I hope that this can give some clarity to the current planetary situation.
