

THE AMERICAN "PEACE" COMMITTEE

Information received on 10/3/1998.

Now we have the Kosovo instigated war!

Here the American "peace" people come running, but, experience has shown that wherever they go, instead of peace, the result is unending fights!

This has been the case since the days of Kissinger. Yes, apparently things got somehow better, but it never lasted.

Reminds me of an aspirin, takes some of the pain away, but the cause of the disease is still there.

The problem is, that these "peace" people, very able ones, only make believe that they want the end of fighting, while the real purpose is WAR!

This is a sad story because the American people are truly decent and peace lovers, but now, due to the government they have, are looked upon as war makers.

Presidents should REPRESENT THE PEOPLE, which is not the case at this moment in the U.S.A!

Kosovo is also a European problem. It would be great if the United Nations are willing to help out, but there is no reason whatsoever for the US to start again interfering.

What would help, is to find the instigators in the region, which, as we know are the very well trained products of the Greys.

As long as the American people agree to the present war politic, they are, without being aware of it, helping our common enemy.

There is a lot of talk about Iraqs weapon production.

Please, notice that NO ONE knows anything about the American weapon storage!

Surely, if an investigation should be made, the main person would "conveniently" die of a heart attack!

Are you aware that there is in storage an "innocent" weapon that can, with great ease, shoot down any satellite they wish. This means that in no time, the planetary

communication, via satellite can be made to disappear, while their own would stay in use.

This is just a tiny comment on the huge storage of lethal weapons the US has. It is produced with the Tax money from its citizens, as well as with the help from our common enemies.

Please, do make your own analysis about what is written here!!!
